

25 Version

Desert Brown

Ultra Bee T

Outstanding features:

1. **2s 0-50km/h** acceleration.
2. Peak power **21kw(Turbo)18kw(Sports)**.
3. New optimized gold front fork, the outer tube change to squeeze-through type, and the wall thickness is more uniform, enhancing the shock absorber's overall rigidity by over **50%**.
4. Optimized damping system with hydraulic buffer devices, improving impact resistance by over **30%**.
5. Drive wheel torque increased to **511 N·m**.
6. **2.5 hours** fast charging(20%-80%).
7. Efficient range **115km@50km/h**.
8. Maximum speed of **95 km/h**.
9. New optimized high-performance lithium battery pack: **74V60Ah**.
10. **Lightweight body design**, balanced power setting
11. The power mode includes Eco/Daily/sports/Reverse and **Turbo mode**.
12. **Crawling control function** (adjustable in three levels).
13. **Enhanced primary transmission system** (carbon fiber belt + forged pulleys + tungsten carbide coating).
14. The surface hardness of the tungsten carbide pulley exceeds Vickers **HV1000**, which is three times that of hard anodized pulleys, significantly increasing wear resistance, with belt strength improved by **60%**.
15. Utilizing a new **HairPin** winding technology that significantly increases the motor's filling factor, resulting in higher efficiency and improved heat dissipation.

·New sand-gold body color

·Front shock absorber new gold appearance

·New custom 18" rear wheel set

·New gold appearance of the front fork, guard plate decals

off-road motorcycle brake hose

New color golden black decals

Carbon Black

New color sand-gold body

Parameter

Dimension:	2080x850x1180mm	Front Fork Travel:	240mm
Dry/Curb Weight:	91kg	Rear Shock/Wheel Travel:	85/240mm
Carrying Capacity:	100kg	Frame Material:	Forged aluminium alloy
Seat Height:	910mm	Tires Type:	Front-80/100-19 Off-Road
Wheel Base:	1380mm		Rear-100/90-18 Off-Road
Ground Clearance:	315mm	Assistance Functions:	SRTC+BERS
Power System:	PMSM + MTPA/MTPV Controller	Throttle Curve:	Three settings
Maximum Power(Motor):	21kw (Turbo) 18kw (Sports)	GPS Terminal:	APP connection (if available)
Max. Torque (on wheel):	511N.m	Charge Time(20%-80%):	2.5h
Battery Type:	74V/60AH Lithium-ion Battery pack	Charging Parameter:	Three different charging power
Top Speed:	95km/h		level-U1(425W)-U2(765W)-U3(1100W)
WMTC road@50km/h:	115km	0-30km/h Acceleration:	1.1s
Riding Mode:	Sports + Eco mode	0-50km/h Acceleration:	2s
Primary Belt System:	Carbon fiber belt + Forged pulley	0-70km/h Acceleration:	3.1s
	+ Tungsten carbide coating	Color:	Carbon Black,Desert Brown
